To Whom It May Concern:

The Empire State Council of Carpenters and the Local Union 7 have had an excellent relationship with Aurora Contractors, Inc, and their carpentry/acoustical division, Expressway Acoustics, over the last twenty years or more.

Aurora has displayed exceptional integrity, competence and communication skills, which allow the construction, process to be completed smoothly throughout every phase of a project, and throw the years they have earned the respect of all the Union Members from this Local that have worked for them.

Based upon our long relationship with Aurora Contractors, we would highly recommend them to be an outstanding company with an excellent reputation that presses them.

Very truly yours,

Edward J. Enders  
President, Local Union 7
